

Textile Flocked Flooring

creating better environments

T

# Elevate your space with style and unique performance

Incorporating Flotex into your design is more than just selecting a flooring solution; it's a choice to transform your space into a haven of both style and harmony. Flotex seamlessly combines aesthetics and functionality to create a flooring solution that's not only visually appealing but also exceptionally practical. Whether you're designing a hotel, a busy hallway, or a dynamic office environment, Flotex stands out as the ideal choice to enhance the comfort, durability, and overall ambience of your space.

When you choose Flotex, you're not just choosing a flooring; you're choosing a statement of style, and a solution which is easy to live with thanks to its special performance and durability. Explore the Flotex colour collection and experience the perfect synergy of form and function in your space.

The Flotex Colour collection is available in sheet and tiles, for endless installation possibilities.

### DURABLE

- With the feel of a textile floor covering, together with the hard wearing and durable characteristics of a resilient floor. Flotex is the best of both worlds.
- Compared to a traditional carpet, the densely flocked surface of nylon 6.6. fibres brings higher durability, so that your vision of your space will last.

# EASY TO CLEAN

- Premium quality nylon 6.6. fibres bring superior stain resistance and cleanability.
- Unlike traditional carpet the unique construction of densely flocked straight pile allows stains to effortlessly release in any cleaning action in both dry and wet conditions.

### HYGIENE AND INDOOR AIR QUALITY

- The 80 million vertical fibres of Flotex capture and hold fine dust and allergens which can then be released by simply vacuuming.
- The waterproof backing of Flotex forms a barrier so that spillages cannot penetrate to the sub-floor. This limits the possibility of bacterial growth, mould and odours.
- Contributing to better indoor air quality, Flotex is the only textile floor covering which carries the seal of approval from the British Allergy Foundation.

### ACOUSTIC AND SAFE

- Thanks to both its impact sound reduction and sound absorption performance, Flotex brings a quiet atmosphere, reduces stress, boosts concentration and creates peaceful environments in any spaces.
- Flotex has a good slip resistance reducing the risk of accidents or injuries in wet or dry conditions so that spaces are safe places for people.
